

Safety Data Sheet According to EC Regulation 1907/2006 (REACH) & 1272/2008 (CLP) & 453/2010 Version number 1.0

Revision: 23.05.2017

SECTION 1: Identification of the	ne substance/mixture and of the company/undertaking		
1.1. Product identifier			
Product name	Armourplan PVC Contact Adhesive (Blue)		
Product number	300073170		
1.2. Relevant identified uses o	f the substance or mixture and uses advised against		
Identified uses	Adhesive.		
Uses advised against	No specific uses advised against are identified.		
1.3. Details of the supplier of the	he safety data sheet		
Supplier			
	IKO PLC		
	Appley Lane North		
	Appley Bridge		
	Wigan		
	Lancashire		
	WN6 9AB		
	www.ikogroup.co.uk		
1.4. Emergency telephone nur	nber		
Emergency telephone	+44 (0)1257 256864 Opening Times: 0900 - 1700 Monday to Friday		
SECTION 2: Hazards identification			
2.1. Classification of the substance or mixture			
Classification (EC 1272/2008)			
Physical hazards	Flam. Liq. 2 - H225		
Health hazards	Eye Irrit. 2 - H319 STOT SE 3 - H336		
Environmental hazards	Not Classified		

Human health

Vapours/aerosol spray may irritate the respiratory system.

Physicochemical The product is highly flammable. Vapours may form explosive mixtures with air.

2.2. Label elements

Pictogram

Signal word	Danger
Hazard statements	H225 Highly flammable liquid and vapour. H319 Causes serious eye irritation. H336 May cause drowsiness or dizziness.
Precautionary statements	 P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. P260 Do not breathe vapours. P280 Wear protective gloves/ protective clothing/ eye protection/ face protection. P281 Use personal protective equipment as required. P284 [In case of inadequate ventilation] wear respiratory protection. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P313 Get medical advice/ attention. P501 Dispose of contents/ container in accordance with national regulations.
Contains	BUTANONE, ACETONE

2.3. Other hazards

SECTION 3: Composition/information on ingredients

3.2. Mixtures

BUTANONE		30-60%
CAS number: 78-93-3	EC number: 201-159-0	REACH registration number: 01- 2119457290-43
Classification Flam. Liq. 2 - H225 Acute Tox. 4 - H312 Eye Irrit. 2 - H319 STOT SE 3 - H336		
ACETONE		10-30%
CAS number: 67-64-1	EC number: 200-662-2	REACH registration number: 01- 2119471330-49
Classification Flam. Liq. 2 - H225 Eye Irrit. 2 - H319		
STOT SE 3 - H336		

The Full Text for all Hazard Statements are Displayed in Section 16.

SECTION 4: First aid measures

4.1. Description of first aid measures

General information	Get medical attention if any discomfort continues.
Inhalation	Remove affected person from source of contamination. Move affected person to fresh air and keep warm and at rest in a position comfortable for breathing.
Ingestion	Rinse mouth thoroughly with water. Get medical attention.
Skin contact	Remove contaminated clothing immediately and wash skin with soap and water.

Eye contact Rinse immediately with plenty of water. Remove any contact lenses and open eyelids wide apart. Continue to inse for at least 15 minutes. Get medical attention immediately. 4.2. Most important symptome and effects, both acute and delayed General information General information The severity of the symptoms described will vary dependent on the concentration and the length of exposure. Inhalation Vapours may cause headache, fatigue, dizziness and nausea. Ingestion May cause discomfort if swallowed. May cause stomach pain or vontiting. Skin contact Priolonged skin contact may cause redness and irritation. Eye contact May cause temporary eye irritation. 4.3. Indication of any immediate medical attention and special treatment needed Notes for the doctor No specific recommendations. If in doubt, get medical attention promptly. SECTION 5: Finfofthing media Suitable extinguishing media Use fire-extinguishing media suitable for the surrounding fire. Extinguish with alcohol-resistant foam, carbon dixide or dry powder. Unsuitable extinguishing from the substance or mixture Specific hazards arising from the substance or mixture Specific hazards The product is fammable. Heating may generate flammable vapours. Protection against nuisance dust must be used when the airborne concentration exceeds 10 mg/m3. The product is highly flammable. 5.3. Advice for firefighters Product is fammable. Heating				
General Information The severity of the symptoms described will vary dependent on the concentration and the length of exposure. Inhalation Vapours may cause headache, fatigue, dizziness and nausea. Ingestion May cause discomfort if swallowed. May cause stomach pain or vomiting. Skin contact Prolonged skin contact may cause redness and irritation. Eye contact May cause temporary eye irritation. 4.3. Indication of any Immediate medical attention and special treatment needed Notes for the doctor Notes for the doctor No specific recommendations. If in doubt, get medical attention promptly. SECTION 5: Firefighting media Use fire-extinguishing media suitable for the surrounding fire. Extinguish with alcohol-resistant foam, carbon dioxide or dry powder. Unsultable extinguishing Do not use water jet as an extinguisher, as this will spread the fire. 5.2. Special hazards arising from the substance or mkture Specific hazards Specific hazards The product is flammable. Heating may generate flammable vapours. Protection against nuisance dust must be used when the airborne concentration exceeds 10 mg/m3. The product is highly flammable. Hazardous combustion Does not decompose when used and stored as recommended. products S3. Advice for firefighters Protoctive actions during Control run-off water by containing a	Eye contact	Rinse immediately with plenty of water. Remove any contact lenses and open eyelids wide apart. Continue to rinse for at least 15 minutes. Get medical attention immediately.		
length of exposure. Inhalation Vapours may cause headache, fatigue, dizziness and nausea. Ingestion May cause discomfort if svallowed. May cause stomach pain or vomiting. Skin contact Prolonged skin contact may cause redness and irritation. Eye contact May cause temporary eye irritation. 4.3. Indication of any immediate- medical attention and special treatment needed Notes for the doctor Notes for the doctor No specific recommendations. If in doubt, get medical attention promptly. SECTION 5: Firefighting measures Stableb extinguishing media Suitable extinguishing media Use fire-extinguishing media suitable for the surrounding fire. Extinguish with alcohol-resistant foam, carbon dioxide or dry powder. Unsuitable extinguishing media Do not use water jet as an extinguisher, as this will spread the fire. Specific hazards The product is fiammable. Heating may generate fiammable vapours. Protection against nuisance dust must be used when the airborne concentration exceeds 10 mg/m3. The product is highly fiammable. Hezardous combustion products Does not decompose when used and stored as recommended. products Specific friefighters Specific protective equipment Wear chemical protective suit. Specific protective equipment Wear chemical protective suit. Specific protective equipment <th>4.2. Most important symptoms</th> <th>and effects, both acute and delayed</th>	4.2. Most important symptoms	and effects, both acute and delayed		
Ingestion May cause disconfort if swallowed. May cause stomach pain or vomiting. Skin contact Prolonged skin contact may cause redness and imitation. Eye contact May cause temporary eye irritation. 4.3. Indication of any immediate medical attention and special treatment needed Notes for the doctor No specific recommendations. If in doubt, get medical attention promptly. SECTION 5: Firefighting meatar Use fire-extinguishing media suitable for the surrounding fire. Extinguish with alcohol-resistant foam, carbon dioxide or dry powder. Unsuitable extinguishing media Use fire-extinguishing media suitable for the surrounding fire. Extinguish with alcohol-resistant foam, carbon dioxide or dry powder. Unsuitable extinguishing media Do not use water jet as an extinguisher, as this will spread the fire. media The product is flammable. Heating may generate flammable vapours. Protection against nuisance dust must be used when the airborne concentration exceeds 10 mg/m3. The product is highly flammable. Hazardous combustion products Does not decompose when used and stored as recommended. protective actions during fire gases or vapours. Keep up-wind to avoid fumes. Special protective equipment for gases or vapours. Keep up-wind to avoid fumes. Special protective equipment for gases or vapours. Keep up-wind to avoid fumes. 6.4. Reference to other sections

	Amoun and vo contact Adhesive (Blac)		
Reference to other sections	Wear protective clothing as described in Section 8 of this safety data sheet. For waste disposal, see section 13.		
SECTION 7: Handling and sto	orage		
7.1. Precautions for safe hand	Jling		
Usage precautions	Keep away from heat, sparks and open flame. Static electricity and formation of sparks must be prevented. Good personal hygiene procedures should be implemented. Wash hands and any other contaminated areas of the body with soap and water before leaving the work site.		
7.2. Conditions for safe storage	ge, including any incompatibilities		
Storage precautions	Keep away from heat, sparks and open flame. Keep container tightly closed. Keep only in the original container.		
Storage class	Flammable liquid storage.		
7.3. Specific end use(s)			
Specific end use(s)	The identified uses for this product are detailed in Section 1.2.		
SECTION 8: Exposure Control	ols/personal protection

ACETONE (CAS: 67-64-1)

Ingredient comments	WEL = Workplace Exposure Limits

8.2. Exposure controls

Protective equipment

Appropriate engineering controls	Provide adequate ventilation. Avoid inhalation of vapours. Observe any occupational exposure limits for the product or ingredients. Provide adequate general and local exhaust ventilation. Observe any occupational exposure limits for the product or ingredients.
Eye/face protection	The following protection should be worn: Chemical splash goggles.
Hand protection	Chemical-resistant, impervious gloves complying with an approved standard should be worn if a risk assessment indicates skin contact is possible. It is recommended that gloves are made of the following material: Nitrile rubber. It should be noted that liquid may penetrate the gloves. Frequent changes are recommended.
Other skin and body protection	Wear appropriate clothing to prevent any possibility of liquid contact and repeated or prolonged vapour contact. Wear apron or protective clothing in case of contact.
Hygiene measures	Use engineering controls to reduce air contamination to permissible exposure level. Provide eyewash station. Wash contaminated clothing before reuse. Wash hands after handling. Eating, smoking and water fountains prohibited in immediate work area.
Respiratory protection	In confined or poorly-ventilated spaces, a supplied-air respirator must be worn. Wear a respirator fitted with the following cartridge: Gas filter, type AX.
Environmental exposure controls	Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

SECTION 9: Physical and Chemical Properties

9.1. Information on basic physical and chemical properties

Appearance	Liquid.
Colour	Amber.
Odour	Characteristic.
Odour threshold	Not available.
рН	Not available.
Melting point	Not available.
Initial boiling point and range	Not determined.
Flash point	-17°C Not specified.
Evaporation rate	Not determined.
Evaporation factor	Not available.
Flammability (solid, gas)	Not available.
Upper/lower flammability or explosive limits	Lower flammable/explosive limit: 1.8 Upper flammable/explosive limit: 13
Other flammability	Not available.
Vapour pressure	Not available.

Vapour density	Not available.	
Relative density	0.83 @ 20°C	
Bulk density	Not available.	
Solubility(ies)	Insoluble in water.	
Partition coefficient	Not available.	
Auto-ignition temperature	515°C	
Decomposition Temperature	Not available.	
Viscosity	Kinematic viscosity > 20.5 mm²/s.	
Explosive properties	Not available.	
Explosive under the influence of a flame	Not considered to be explosive.	
Oxidising properties	Not available.	
Comments	Information given is applicable to the product as supplied.	
9.2. Other information		
Other information	No information required.	
Refractive index	Not available.	
Particle size	Not available.	
Molecular weight	Not available.	
Volatility	Not available.	
Saturation concentration	Not available.	
Critical temperature	Not available.	
SECTION 10: Stability and reactivity		
10.1. Reactivity		
Reactivity	There are no known reactivity hazards associated with this product.	
10.2. Chemical stability		
Stability	No particular stability concerns. Stable at normal ambient temperatures and when used as recommended.	
10.3. Possibility of hazardous reactions		
Possibility of hazardous reactions	Not applicable. Not relevant.	
10.4. Conditions to avoid		
Conditions to avoid	Avoid heat, flames and other sources of ignition.	
10.5. Incompatible materials		
Materials to avoid	Strong oxidising agents. Strong acids. Strong alkalis.	
10.6. Hazardous decomposition products		

Hazardous decomposition products

Does not decompose when used and stored as recommended. Thermal decomposition or combustion may liberate carbon oxides and other toxic gases or vapours. Oxides of carbon. Oxides of nitrogen.

SECTION 11: Toxicological information

11.1. Informa	tion on toxi	cological effects
---------------	--------------	-------------------

Acute toxicity - oral	
ATE oral (mg/kg)	4,347.83
Acute toxicity - dermal	

rieute teraentj uermai	
ATE dermal (mg/kg)	4,347.83

Acute toxicity - inhalation

ATE inhalation (vapours mg/l) 43.48

BUTANONE

Acute toxicity - oral	
Acute toxicity oral (LD₅₀ mg/kg)	2,000.0
Species	Rat
Acute toxicity - dermal	
Acute toxicity dermal (LD₅₀ mg/kg)	2,000.0
Species	Rabbit
ATE dermal (mg/kg)	2,000.0
Acute toxicity - inhalation	
Acute toxicity inhalation (LC₅₀ vapours mg/l)	20.0
Species	Rat

ACETONE

Other health effects	There is no evidence that the product can cause cancer.
Acute toxicity - oral	
Acute toxicity oral (LD₅₀ mg/kg)	5,800.0
Species	Rat
Acute toxicity - dermal	
Acute toxicity dermal (LD₅₀ mg/kg)	2,000.0
Species	Rabbit
Acute toxicity - inhalation	
Acute toxicity inhalation (LC₅₀ vapours mg/l)	76.0

Species	Rat
ATE inhalation (vapours mg/l)	76.0
Skin corrosion/irritation	
Extreme pH	Slightly irritating.
Serious eye damage/irritat	ion
Serious eye damage/irritation	Moderately irritating.
Respiratory sensitisation	
Respiratory sensitisation	Not sensitising.

SECTION 12: Ecological Information

12.1. Toxicity

BUTANONE

Acute toxicity - fish	LC50, EC50, IC50, : 100 mg/l, Algae
Acute toxicity - aquatic plants	LC50, EC50, IC50, : 100 mg/l, Fish
	ACETONE
Toxicity	Not considered toxic to fish.
Acute toxicity - fish	LC50, 96 hours: 5540 mg/l, Freshwater fish , 96 hours: 11000 mg/l, Marinewater fish LC₅₀, 96 hours: 11000 mg/l, Algae
Acute toxicity - aquatic invertebrates	EC₅₀, 48 hours: 8800 mg/l, Daphnia magna EC₅₀, 48 hours: 8800 mg/l, Daphnia magna
Acute toxicity - aquatic plants	IC₅₀, 72 hours: 430 mg/l, Fish
Acute toxicity - microorganisms	, 30 minutes: 1000 mg/l, Activated sludge

12.2. Persistence and degradability

ACETONE

Persistence and degradability

The product is expected to be biodegradable.

12.3. Bioaccumulative potential

Partition coefficient

Not available.

ACETONE

Bioaccumulative potential The product does not contain any substances expected to be bioaccumulating. BCF: 3,

	Partition coefficien	t Pow: < -0.24
12.4. Mob	ility in soil	
•		The product contains volatile organic compounds (VOCs) which will evaporate easily from a surfaces.
		BUTANONE
	Mobility	The product contains volatile organic compounds (VOCs) which will evaporate easily from all surfaces.
		ACETONE
	Mobility	The product is miscible with water and may spread in water systems.
	Adsorption/desorp coefficient	tion Water - log Koc: 1.5 @ 20°C
	Henry's law consta	nt 2929-3070 Pa m3/mol @ 25°C
12.5. Resi	ults of PBT and vPvB	assessment
Results of assessme		This product does not contain any substances classified as PBT or vPvB.
		BUTANONE
	Results of PBT an assessment	d vPvB This product does not contain any substances classified as PBT or vPvB.
		ACETONE
	Results of PBT an assessment	d vPvB This product does not contain any substances classified as PBT or vPvB.
12.6. Othe	er adverse effects	
Other adv	erse effects	None known.
		BUTANONE
	Other adverse effe	cts None known.
		ACETONE
	Other adverse effe	cts Not applicable.
SECTION	13: Disposal conside	ations
13.1. Was	te treatment methods	
General in		Waste should be treated as controlled waste. Dispose of waste to licensed waste disposal in accordance with the requirements of the local Waste Disposal Authority.
Disposal n		Dispose of waste to licensed waste disposal site in accordance with the requirements of the local Waste Disposal Authority.
	14: Transport informa	

	1	4.	1	.ι	JN	number
--	---	----	---	----	----	--------

14.1. UN number	
UN No. (ADR/RID)	1133
UN No. (IMDG)	1133
UN No. (ICAO)	1133
14.2. UN proper shipping name	<u>9</u>
Proper shipping name (ADR/RID)	ADHESIVES
Proper shipping name (IMDG)	ADHESIVES
Proper shipping name (ICAO)	ADHESIVES
Proper shipping name (ADN)	ADHESIVES
14.3. Transport hazard class(e	<u>s)</u>
ADR/RID class	3
ADR/RID label	3
IMDG class	3
ICAO class/division	3
Transport labels	
14.4. Packing group	
ADR/RID packing group	Ш
IMDG packing group	Ш
ICAO packing group	Ш
14.5. Environmental hazards	
Environmentally hazardous sul No.	bstance/marine pollutant
14.6. Special precautions for us	ser
EmS	F-E, S-D

Emergency Action Code•3YEHazard Identification Number33

(ADR/RID)

Tunnel restriction code (D/E)

14.7. Transport in bulk according to Annex II of MARPOL and the IBC Code

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

ArmourPlan PVC Contact Adhesive (Blue)

National regulations	Health and Safety at Work etc. Act 1974 (as amended). The Control of Substances Hazardous to Health Regulations 2002 (SI 2002 No. 2677) (as amended). Control of Substances Hazardous to Health Regulations 2002 (as amended).
EU legislation	Commission Directive 91/322/EEC of 29 May 1991 on establishing indicative limit values by implementing Council Directive 80/1107/EEC on the protection of workers from the risks related to exposure to chemical, physical and biological agents at work. Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) (as amended).

15.2. Chemical safety assessment

No chemical safety assessment has been carried out.

SECTION 16: Other information		
Issued by	SHE Dep.	
Revision date	23/05/2017	
Revision	1	
SDS number	20663	
Hazard statements in full	H225 Highly flammable liquid and vapour. H312 Harmful in contact with skin. H319 Causes serious eye irritation. H336 May cause drowsiness or dizziness.	
Store Between	Store Between 5'c - 25'c	
Contains SVHC	NO
