

**IKOTRIM F**

**PRODUCT INFORMATION**

IKOtrim F, is a roof edge trim, manufactured from GRP (pultruded glass fibre reinforced polyester resin). The trims are thermally inert with a low coefficient of expansion.

Identifier	Product Code
Linear Unit	Refer to product details in Table 1.
Internal Corners	
External Corners	

**USE**

Thermally inert preformed GRP edge trims for use with reinforced bitumen membrane built up roofing systems.

This product must be installed by an IKO Approved or Registered Installer. All work must be undertaken in accordance with the requirements of the specific information provided with the issued IKO Specification document, or guidance documents where applicable.

**FEATURES & BENEFITS**

**Thermally inert** – will not distort or warp with temperature changes.

**Maintenance free** – no painting required (will not rot or rust) as well as resistant to atmospheric pollution and UV stable.

**Lightweight** – easily handled, strong and durable.

**Simple installation** – easily cut and drilled.

**COMPOSITION**

<b>Material Type:</b>	GRP.
<b>Form:</b>	Pultruded Sections
<b>Colours:</b>	Black/Grey/White
<b>Linear Unit</b>	
Length:	3m
Drip:	65/100/150/200mm
Arm:	60/65/85mm
<b>Corner Units</b>	
Dimension:	240mm x 240mm
Orientation/Angle:	90° Internal/External

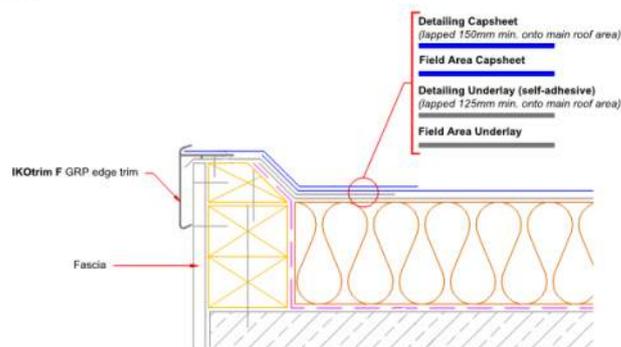

**INSTALLATION**

Secure IKOtrim F Edge Trim, in between the waterproofing underlay and capsheet, mechanically fastened 30mm (max) from the ends at 300mm centre maximum (150mm centres for areas of high wind uplift). Using countersunk screws or suitable fixings (minimum 20mm long) into the sound substrate.

Any trim with a drip length of greater than 150mm *must* also be face fixed with mechanical fixings, to prevent wind uplift.

When fixed the drip should have a 3mm clear gap from wall or fascia.

Prime trim arm with specified primer and install specified detailing capsheet: Pressed into channel of trim.

For further information please refer the IKO Specification Document

**DURABILITY**

When installed as part of a IKO specified built-up roof system and conditions are maintained as per IKO literature, relevant Codes of Practice and UK Building Regulations, the product will last the period of the IKO specified system guarantee.
