

ARMOURPLAN G MEMBRANE

PRODUCT INFORMATION

Glass tissue reinforced PVC membrane for detailing on Armourplan roof systems

Offers excellent dimensional stability and flexibility allowing the material to be formed easily into intricate details ensuring the roof installation is fully waterproofed

Adhered to suitable substrates using Armourplan PVC Contact Adhesive or Sprayfast PCA Adhesive.

All overlaps and joints are heat welded using suitable hot-air welding equipment.

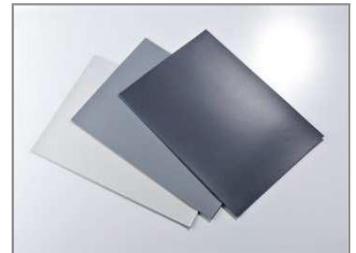

Used for forming complex details such as pipe penetrations or external corners

Can be used for waterproofing the joints between Armourplan membrane coated metal flashing sections and gutter joints

Can also be used to form adhered upstands.

FEATURES & BENEFITS

- Excellent flexibility for complex detailing
- Excellent UV resistance and durability
- Excellent mechanical properties and product performance
- Efficient and safe installation
- Secure seam welding quality

Description	Glass tissue reinforced PVC membrane
Thickness	1.2mm
Length	20m
Width	1.06m
Colour	Light/Mid/Slate Grey
Material	PVC-P
Reinforcement	Glass tissue

ARMOURPLAN G MEMBRANE ROLL SIZES

Colour	Width	Length	Item number
Mid Grey	1.06m	20m	49110612
Slate Grey	1.06m	20m	50110612
Light Grey	1.06m	20m	48110612
