

# IKOpro Bridging Tape

## Technical Data Sheet – Section 7.00

### PRODUCT INFORMATION

IKOpro Bridging Tape is a self-adhesive de-bonding tape used where small amounts of movement may occur, and to bridge gaps in all panelled joints within IKO Polimar liquid waterproofing systems.

Size	Product Code
45m x 75mm	MW700206

### USE

Used as a de-bonding tape at positions of expected minimal movement (less than 5mm) such as joints in timber panels, seams, small gaps or where differential movement no greater than 5mm is expected.

As this product is utilised within an Approved Contractor network and guided by an IKO Specification document, where omission or differing information exists the IKO Specification document will take precedence.

### COMPOSITION

Composition: Aluminium Foil  
Form: Roll  
Colour: Aluminium

### APPLICATION

IKOpro Bridging Tape should be used to bridge all small gaps (less than 5mm), joints, seams, etc. where minimal movement of less than 5mm is may occur.

The bridging tape backing should be pressed firmly onto the substrate surface and care should be taken to ensure that the edges are firmly pressed down flush with the surface profile.

### OTHER RELEVANT DOCUMENTATION

Where applicable, Material Safety Data Sheets (MSDS), Declaration of Performances (DoPs), and Third-Party Accreditations are available to view and download from the IKO website Resource Centre:

## COMPANY ACCREDITATIONS

IKO PLC, a roofing, waterproofing, and insulation company, holds various accreditations that demonstrate its commitment to quality, safety, and environmental responsibility. These include ISO certifications for quality management and occupational health and safety, British Board of Agrément (BBA) accreditations for specific products and systems, and Factory Mutual (FM) approval for certain roofing systems.

All our manufacturing plants have BS EN ISO 9001, BS EN ISO 14001, BS EN ISO 45001, and BES 6001 accreditation, meaning we match the quality and sustainability requirements and use responsibly sourced raw materials in our production. We also re-use by-products from manufacture, wrap products in minimal packaging, and we employ a streamlined transportation network.

IKO is also a leading member of all relevant trade associations such as NFRC, BFRA, SPRA, LRWA, MAC, RSTA, BJA and LCRIG having technical experts within the technical and standards committees to help us get informed first-hand about recent updates on technical requirements for the design and installation of roofing, waterproofing, road and bridge maintenance industry products.

## DISCLAIMER

Whilst every precaution is taken to ensure that the information given in this literature is correct and up-to-date it is not intended to form part of any contract or give rise to any collateral liability, which is hereby specifically excluded.

IKO reserves the right to amend and/or withdraw this document without notice.

Intending purchasers of our materials should therefore verify with the company whether any changes in our specification, application details, withdrawals or otherwise have taken place since this literature was published.
