

IKO Spectraclad Membrane Coated Metal

Technical Data Sheet

PRODUCT INFORMATION

IKO Spectraclad Membrane Coated Metal combines a galvanised steel substrate factory-laminated with IKO Spectraplan membrane. Available in sheets, it can be fabricated off-site for perimeter details like drip edges and upstands.

The TPE membrane surface allows heat welding of IKO Spectraplan to pre-formed trims, ensuring fully sealed and watertight perimeters.

Alternatively, IKO offers a range of pre-formed drip trims and angled profiles for on-site convenience.

Colour	White (nearest RAL 9016)
Membrane thickness	1.2mm
Steel thickness	0.6mm

IKO Spectraplan Membrane Coated Metal Sizes

IKO product code	57720018
Length (mm)	2000
Width (mm)	1000

IKO Spectraplan Pre-Formed Drip Flashing Sizes

IKO product code	57720050	57720100
Length (mm)	2000	2000
Face depth (mm)	50	100
Horizontal leg (mm)	100	85

IKO Spectraplan Pre-Formed Chase Detail Sizes

IKO product code	57720075
Length (mm)	2000
Face depth (mm)	75
Horizontal leg (mm)	25

FEATURES & BENEFITS

- Free from plasticisers, halogens, heavy metals and softeners.
- High solar reflectivity reducing urban heat island effect.
- Lower carbon footprint as the only UK manufactured TPE waterproofing membrane.
- Wide welding window of 200°C to 600°C ensuring reliable overlaps.
- Compatible with existing bitumen membranes without separation layer.
- High UV resistance and a long service life.
- Homogeneous compound offering excellent impact resistance, tensile strength and elasticity.
- Installed by IKO approved contractors.
